Brookdale's proportionate share of Adjusted Free Cash Flow of unconsolidated ventures for the fourth quarter of 2016 increased \$0.6 million to \$6.8 million, compared to the fourth quarter of 2015.

(1) Adjusted EBITDA and Adjusted Free Cash Flow are financial measures not calculated in accordance with GAAP. See "Reconciliation of Non-GAAP Financial Measures" below for the Company's definitions of its non-GAAP financial measures, reconciliations of such measures to their most comparable GAAP financial measures and other important information regarding the use of the Company's non-GAAP financial measures.

FULL YEAR 2016 HIGHLIGHTS:

Net loss decreased 11.7% to \$404.6 million for 2016 compared to \$458.2 million for 2015.

Adjusted EBITDA increased 5.8% to \$770.8 million for 2016 compared to \$728.2 million for 2015. Excluding integration, transaction, transaction-related and strategic project costs of \$54.2 million, Adjusted EBITDA for the full year 2016 was \$825.0 million.

Net cash provided by operating activities increased 25.1% to \$365.7 million for 2016 compared to \$292.4 million for 2015.

Adjusted Free Cash Flow was \$153.8 million for 2016 versus a negative \$8.7 million for 2015.

Completed \$304.9 million of dispositions, including the sale of 51 owned communities.

Entered into agreements to acquire a 15% ownership interest in an unconsolidated joint venture that intends to acquire a portfolio of 64 communities currently leased to Brookdale and to terminate the leases on an additional 33 communities leased to Brookdale, of which four were transitioned to an existing unconsolidated joint venture.

Total liquidity was \$584.0 million at December 31, 2016 compared to \$194.6 million at December 31, 2015.

Brookdale Senior Living Inc. (NYSE: BKD) ("Brookdale" or the "Company") announced results for the quarter and year ended December 31, 2016.

Andy Smith, Brookdale's President and CEO, said, "We accomplished much during 2016, including making significant progress with our portfolio optimization efforts as well as improving our liquidity and the Company's cash flow. We are operating in a difficult environment with intense supply pressure and a competitive labor market. Despite these macro-economic conditions, we were able to grow both fourth quarter Adjusted EBITDA and Adjusted Free Cash Flow over the prior year quarter. With the fourth quarter results, we achieved results at the upper end of our full year guidance range provided last quarter."

"We believe that supply and labor pressures will continue for the majority of 2017 and we have reflected this impact into our guidance. We have prioritized our efforts in marketing, pricing, product positioning, community management retention and capital expenditures in markets where we are experiencing or expect heightened competitive pressure. We remain focused on creating shareholder value while enriching the lives of the seniors we serve."

Fourth Quarter Financial Results

Total revenue for the fourth quarter of 2016 was \$1.21 billion compared to \$1.24 billion for the prior year period. During the fifteen months ended December 31, 2016, the Company disposed of a total of 74 communities, either through sales or lease terminations. Revenue for these 74 communities was \$11.7 million in the fourth quarter of 2016 compared to \$48.1 million in the fourth quarter of 2015.

Resident fees were \$1.0 billion for the fourth quarter of 2016, a decrease of 3.0% from the fourth quarter of 2015. Fourth quarter monthly RevPA^(R) for the consolidated senior housing portfolio was \$3,823, an increase of 2.5% from the fourth quarter of 2015, driven by a year-over-year increase in RevPO^(R) for the consolidated senior housing portfolio of 3.3% and a decrease in weighted average unit occupancy of 80 basis points. The sequential decline in weighted average unit occupancy was 20 basis points.

Facility operating expenses for the fourth quarter of 2016 were \$686.2 million, a decrease of 1.6% from the fourth quarter of 2015. Combined segment

operating margin was 33.4% for the fourth quarter of 2016 versus 34.0% for the fourth quarter of 2015. Facility operating expenses for the 74 communities disposed of during the fifteen months ended December 31, 2016 were \$9.5 million in the fourth quarter of 2016 compared to \$39.2 million in the fourth quarter of 2015.

Net loss for the fourth quarter of 2016 was \$268.6 million, versus net loss of \$174.3 million for the fourth quarter of 2015. During the quarter, the Company incurred \$76.3 million of impairment charges related to the transactions with HCP, Inc. ("HCP") which were announced in November 2016. Additionally, the Company incurred \$145.6 million of non-cash impairment charges in conjunction with its annual impairment assessment.

Net cash provided by operating activities for the fourth quarter of 2016 was \$88.5 million, a decrease of \$1.7 million, or 1.9%, compared with the fourth quarter of 2015.

Weighted average shares outstanding were 185.7 million for the fourth quarter of 2016 compared with weighted average shares outstanding of 184.8 million for the prior year quarter.

⁽²⁾ RevPAR, or average monthly senior housing resident fee revenues per available unit, is defined by the Company as resident fee revenues, excluding the amortization of entry fees and Brookdale Ancillary Services segment revenue, for the corresponding portfolio for the period, divided by the weighted average number of available units in the corresponding portfolio for the period, divided by the number of months in the period. RevPOR, or average monthly senior housing resident fee revenues per occupied unit, is defined by the Company as resident fee revenues, excluding the amortization of entry fees and Brookdale Ancillary Services segment revenue, for the corresponding portfolio for the period, divided by the weighted average number of occupied units in the corresponding portfolio for the period, divided by the number of months in the period.

Annual Financial Results

Total revenue for the full year 2016 was \$4.98 billion, an increase of 0.3% from the prior year. Net loss for the full year 2016 was \$404.6 million, versus net loss of \$458.2 million for the full year 2015. Full year 2016 net cash provided by operating activities was \$365.7 million, an increase of \$73.4 million, or 25.1%, compared with the prior year.

The Company's full year 2016 results compared to the most recent 2016 full-year guidance were:

Non-GAAP Financial Measures

Adjusted EBITDA, Cash From Facility Operations ("CFFO"), Adjusted CFFO and Adjusted Free Cash Flow are financial measures that are not calculated in accordance with GAAP. The Company strongly urges you to review the information under "Reconciliation of Non-GAAP Financial Measures" below for the Company's definitions of each of these non-GAAP financial measures, a detailed description of why the Company believes such measures are useful, the limitations of each measure, and a reconciliation of Adjusted EBITDA from the Company's net income (loss), a reconciliation of the Company's CFFO, Adjusted CFFO, and Adjusted Free Cash Flow from the Company's net cash provided by (used in) operating activities, and a reconciliation of the Company's proportionate share of each of CFFO and Adjusted Cash Flow of unconsolidated ventures from such ventures' net cash provided by (used in) operating activities. The Company changed its definition and calculation of Adjusted EBITDA and CFFO when it reported results for the second quarter of 2016 and third quarter of 2016. Prior period amounts of Adjusted EBITDA, CFFO and Adjusted CFFO presented herein have been recast to conform to the new definitions. See "Reconciliation of Non-GAAP Financial Measures" below for a description of such changes to the definitions of these non-GAAP measures.

Adjusted EBITDA increased 3.5% to \$184.2 million in the fourth quarter of 2016, compared to \$178.0 million for the fourth quarter of 2015. The Company's CFFO was \$66.4 million in the fourth quarter of 2016, an increase of 5.6% from the Company's CFFO of \$62.9 million in the prior year period. The Company's proportionate share of CFFO of unconsolidated ventures was \$12.9 million for the fourth quarter of 2016, a decrease of 31.9% compared with \$18.9 million for the prior year period.

The Company's Adjusted CFFO was \$81.5 million for the fourth quarter of 2016, a decrease of \$6.2 million, or 7.1%, compared with the fourth quarter of 2015. The Company's Adjusted CFFO for these periods represents the Company's CFFO excluding \$15.1 million and \$24.9 million of integration, transaction, transaction-related and strategic project costs for the fourth quarter of 2016 and 2015, respectively.

The Company's Adjusted Free Cash Flow for the fourth quarter of 2016 increased \$65.9 million to \$33.2 million for the fourth quarter of 2016, versus a negative \$32.7 million for the fourth quarter of 2015. The Company's proportionate share of Adjusted Free Cash Flow of unconsolidated ventures was \$6.8 million for the fourth quarter of 2016 compared with \$6.2 million for the prior year period.

Operating Activities

The Company reports information on five segments. Three segments (Retirement Centers, Assisted Living and CCRCs – Rental) constitute the Company's consolidated senior housing portfolio. The Ancillary Services segment includes the Company's outpatient therapy, home health and hospice services. The Management Services segment includes the services provided to unconsolidated communities that are operated under management agreements.

Senior Housing

Revenue for the consolidated senior housing portfolio was \$896.0 million for the fourth quarter of 2016, a decrease of 2.7% from the fourth quarter of 2015. During the fifteen months ended December 31, 2016, the Company disposed of a total of 74 communities, either through sales or lease terminations. Revenue for these 74 communities was \$11.7 million in the fourth quarter of 2016 compared to \$48.1 million in the fourth quarter of 2015.

Same community revenue for the consolidated senior housing portfolio for the three months ended December 31, 2016 increased 1.0% over the corresponding period in 2015. Same community RevPAR increased 1.1% in the fourth quarter of 2016 from the fourth quarter of 2015, driven by an increase in same community RevPOR of 2.5% and a decline in weighted average unit occupancy of 120 basis points.

Facility operating expenses were \$588.4 million for the fourth quarter of 2016, a decrease of 1.1% from the fourth quarter of 2015. Consolidated same community facility operating expenses for the fourth quarter of 2016 increased by 3.5% over the fourth quarter of 2015, primarily due to increases in salaries and wages from wage rate increases.

Operating income for the consolidated senior housing portfolio decreased by 5.7% from the fourth quarter of 2015, to \$307.6 million for the fourth quarter of 2016. Same community operating income for the consolidated senior housing portfolio for the fourth quarter of 2016 decreased by 3.3% from the fourth quarter of 2015, to \$299.5 million.

Brookdale Ancillary Services

During the quarter, the Company significantly reduced the number of outpatient therapy clinics because lower reimbursement rates and lower utilization made the business less attractive. Revenue for the Company's ancillary services segment decreased \$5.8 million, or 4.9%, to \$114.0 million for the fourth quarter of 2016 versus the prior year fourth quarter. Ancillary services facility operating expenses for the fourth quarter of 2016 decreased \$4.8 million, or 4.7%, over the fourth quarter of 2015. As a result, ancillary services operating income for the fourth quarter of 2016 was \$16.3 million, a decrease of 6.0% versus the fourth quarter of 2015, with operating margin at 14.3% for the fourth quarter of 2016.

Liquidity

Total liquidity for the Company was \$584.0 million at December 31, 2016, an increase of \$389.4 million from December 31, 2015. Liquidity at December 31,

2016 included \$216.4 million of unrestricted cash and cash equivalents and \$367.6 million of availability on the Company's secured credit facility. During the fourth quarter of 2016, the Company's unconsolidated CCRC venture obtained non-recourse mortgage financing on certain communities as part of the multi-part transactions with HCP, and the Company received distributions of \$221.6 million of the net proceeds from such financing.

Portfolio Optimization Activities

The Company continues to actively explore opportunities to optimize its portfolio through disposing of owned and leased communities and restructuring leases in order to simplify and streamline its business, to increase the quality and durability of cash flow, and to reduce debt and lease leverage.

Dispositions of Owned Communities

The Company began the fourth quarter of 2016 with 28 communities classified as assets held for sale with a carrying value totaling \$173.5 million, and \$106.9 million of associated mortgage debt was included in the current portion of the Company's long-term debt. During the fourth quarter of 2016, the Company sold 12 of these communities (837 units) for an aggregate sales price of \$80.7 million.

As of December 31, 2016, 16 communities (1,423 units) were classified as assets held for sale with a carrying value of \$97.8 million, and \$60.5 million of associated mortgage debt was included in the current portion of long-term debt. The closings of the sales of the 16 remaining communities held for sale are subject to receipt of regulatory approvals and satisfaction of other customary closing conditions, and are expected to occur in the next 12 months; however, there can be no assurance that the transactions will close or, if they do, when the actual closings will occur.

Dispositions and Restructurings of Leased Communities

During the fourth quarter of 2016, the Company announced that it had entered into a definitive agreement with HCP for a multi-part transaction involving, among other things, the termination of leases for 29 communities and the contribution of four communities then leased to the Company by HCP into an existing RIDEA joint venture with HCP. During the fourth quarter of 2016, the Company terminated triple-net leases with respect to seven of such communities, four of which were contributed to an existing unconsolidated venture. The Company terminated one triple-net lease during January 2017, and expects the triple-net leases with respect to the remaining 25 communities to be terminated in stages through the fourth quarter of 2017.

The Company announced at the same time that it had entered into a definitive agreement with affiliates of Blackstone Real Estate Partners VIII L.P. (collectively "Blackstone") to acquire a 15% ownership interest in a joint venture that intends to acquire a portfolio of 64 communities currently leased to the Company from HCP. Upon completion of the acquisition of the assets, the Company will manage the communities on behalf of the joint venture. The Company expects to contribute a total of approximately \$170.0 million to purchase its equity interest, terminate the existing leases and fund its share of anticipated closing costs and working capital. The transaction is expected to close during the first quarter of 2017.

The closings of the various pending transactions with HCP and Blackstone are subject to the satisfaction of various closing conditions, including (where applicable) the receipt of regulatory approvals. There can be no assurance that the transactions will close or, if they do, when the closings will occur.

Share Repurchase

On November 1, 2016, the Company announced that its board of directors had approved a share repurchase program that authorizes the Company to purchase up to \$100.0 million in the aggregate of the Company's common stock. Pursuant to this authorization, during the three months ended December 31, 2016, the Company purchased 750,000 shares at a cost of approximately \$9.6 million, or a weighted average price of approximately \$12.83 per share. As of December 31, 2016, approximately \$90.4 million remains available under this share repurchase authorization.

2017 Outlook

For the full year 2017, the Company is providing the following guidance:

(in millions)

**Full-Year 2017
Guidance**

Adjusted EBITDA, excluding integration, transaction,
transaction-related and strategic project costs

\$670 to \$710

Adjusted Free Cash Flow

\$140 to \$170

The Company's proportionate share of Adjusted Free Cash Flow
of unconsolidated ventures

\$25 to \$35

The foregoing guidance excludes the potential impact of any future acquisition, disposition or refinancing, including debt modification costs. It includes the pending or planned dispositions of communities, including the 16 communities classified as held for sale as of December 31, 2016, and it includes the pending transactions with HCP and Blackstone announced during the fourth quarter of 2016. For further details on guidance please see the updated Investor Presentation, which will be posted on the Company's website at www.brookdale.com. Reconciliations of the non-GAAP financial measures included in the foregoing guidance to the most comparable GAAP financial measures are not available without unreasonable effort due to the inherent difficulty in forecasting the timing or amounts of items required to reconcile Adjusted EBITDA, Adjusted Free Cash Flow and the Company's proportionate share of Adjusted Free Cash Flow of unconsolidated ventures from the Company's net income (loss), the Company's net cash provided by (used in) operating activities and the unconsolidated ventures' net cash provided by (used in) operating activities, as applicable. Variability in the timing or amounts of items required to reconcile each measure may have a significant impact on the Company's future GAAP results.

Supplemental Information

The Company will post on the Investor Relations section of the Company's website at www.brookdale.com supplemental information relating to the Company's fourth quarter 2016 results. This information will also be furnished in a Form 8-K to be filed with the SEC. An updated Investor Presentation also will be posted.

Reconciliation of Non-GAAP Financial Measures

This earnings release contains financial measures utilized by management to evaluate our operating performance and liquidity that are not calculated in accordance with U.S. generally accepted accounting principles ("GAAP"). Each of these measures, Adjusted EBITDA, CFFO, Adjusted CFFO and Adjusted

Free Cash Flow should not be considered in isolation from or as superior to or as a substitute for net income (loss), income (loss) from operations, net cash provided by (used in) operating activities, or other financial measures determined in accordance with GAAP. We use these non-GAAP financial measures to supplement our GAAP results in order to provide a more complete understanding of the factors and trends affecting our business. We strongly urge you to review the reconciliations of Adjusted EBITDA from the Company's net income (loss), the Company's CFFO, Adjusted CFFO and Adjusted Free Cash Flow from the Company's net cash provided by (used in) operating activities, and the Company's proportionate share of each of CFFO and Adjusted Free Cash Flow of unconsolidated ventures from such ventures' net cash provided by (used in) operating activities, along with our consolidated financial statements included herein. We also strongly urge you not to rely on any single financial measure to evaluate our business. We caution investors that amounts presented in accordance with our definitions of Adjusted EBITDA, CFFO, Adjusted CFFO and Adjusted Free Cash Flow may not be comparable to similar measures disclosed by other companies, because not all companies calculate these non-GAAP measures in the same manner.

We changed our definitions and calculations of Adjusted EBITDA and CFFO from prior periods when we reported results for the second and third quarters of 2016, as follows:

We changed our definition and calculation of Adjusted EBITDA when we reported results for the second quarter of 2016. Prior period amounts of Adjusted EBITDA presented herein have been recast to conform to the new definition. The current definition of Adjusted EBITDA reflects the removal of the following adjustments to our net income (loss) that were used in the former definition: the addition of our proportionate share of CFFO of unconsolidated ventures and our entrance fee receipts, net of refunds, and the subtraction of our amortization of entrance fees.

We changed our definition and calculation of CFFO when we reported results for the third quarter of 2016. Prior period amounts of the Company's CFFO and Adjusted CFFO have been recast to reflect the Company's CFFO and Adjusted CFFO separate from, and exclusive of, the Company's proportionate share of CFFO of unconsolidated ventures. Previously, in connection with our reporting results for the second quarter of 2016, we began reporting CFFO as a measure of liquidity, and as such we changed the definition of CFFO to reflect the reconciliation of such measure from the Company's net cash provided by (used in) operating activities. This previous change had no effect on the amounts of CFFO or Adjusted CFFO presented herein for this period or prior periods.

Adjusted EBITDA

We define Adjusted EBITDA as net income (loss) *before*: provision (benefit) for income taxes; non-operating (income) expense items; depreciation and amortization (including non-cash impairment charges); (gain) loss on sale or acquisition of communities (including gain (loss) on facility lease termination); straight-line lease expense (income), net of amortization of (above) below market rents; amortization of deferred gain; non-cash stock-based compensation expense; and change in future service obligation.

We use Adjusted EBITDA to assess our overall operating performance. We believe this non-GAAP measure, as we have defined it, is helpful in identifying trends in our day-to-day performance because the items excluded have little or no significance on our day-to-day operations. This measure provides an assessment of controllable expenses and affords management the ability to make decisions which are expected to facilitate meeting current operating goals as well as achieve optimal operating performance. It provides an indicator for management to determine if adjustments to current spending decisions are needed.

Adjusted EBITDA provides us with a measure of operating performance, independent of items that are beyond the control of management in the short-term, such as the change in the liability for the obligation to provide future services under existing lifecare contracts, depreciation and amortization (including non-cash impairment charges), straight-line lease expense (income), taxation and interest expense associated with our capital structure. This metric measures our operating performance based on operational factors that management can impact in the short-term, namely revenues and the cost structure or expenses of the organization. Adjusted EBITDA is one of the metrics used by senior management and the board of directors to review the operating performance of the business on a regular basis. We believe that Adjusted EBITDA is also used by research analysts and investors to evaluate the performance of and value companies in our industry.

Adjusted EBITDA has limitations as an analytical tool. Material limitations in making the adjustments to our net income (loss) to calculate Adjusted EBITDA, and using this non-GAAP financial measure as compared to GAAP net income (loss), include:

the cash portion of interest expense, income tax (benefit) provision and non-recurring charges related to gain (loss) on sale of communities (or facility lease termination) and extinguishment of debt activities generally represent charges (gains), which may significantly affect our operating results; and depreciation and amortization and asset impairment represent the wear and tear and/or reduction in value of our communities and other assets, which affects the services we provide to residents and may be indicative of future needs for capital expenditures.

We believe Adjusted EBITDA is useful to investors in evaluating our operating performance because it is helpful in identifying trends in our day-to-day performance since the items excluded have little or no significance to our day-to-day operations and it provides an assessment of our revenue and expense management.

(1) For the three and twelve months ended December 31, 2016, the calculation of Adjusted EBITDA includes integration, transaction, transaction-related and strategic project costs of \$10.1 million and \$54.2 million, respectively. For the three and twelve months ended December 31, 2015, the calculation of Adjusted EBITDA includes integration, transaction, transaction-related and strategic project costs of \$24.7 million and \$116.8 million, respectively. Integration costs include transition costs associated with the Emeritus merger and organizational restructuring (such as severance and retention payments and recruiting expenses), third party consulting expenses directly related to the integration of Emeritus (in areas such as cost savings and synergy realization, branding and technology and systems work), and internal costs such as training, travel and labor, reflecting time spent by Company personnel on integration activities and projects. Transaction and transaction-related costs include third party costs directly related to the acquisition of Emeritus, other acquisition and disposition activity, community financing and leasing activity and corporate capital structure assessment activities (including shareholder relations advisory matters), and are primarily comprised of legal, finance, consulting, professional fees and other third party costs. Strategic project costs include costs associated with certain strategic projects related to refining the Company's strategy, building out enterprise-wide capabilities for the post-merger platform (including the EMR roll-out project) and reducing costs and achieving synergies by capitalizing on scale.

CFFO, Adjusted CFFO and Adjusted Free Cash Flow

We define Cash From Facility Operations (CFFO) as net cash provided by (used in) operating activities *before*: changes in operating assets and liabilities; gain (loss) on facility lease termination; and distributions from unconsolidated ventures from cumulative share of net earnings; and *adjusted for*: recurring capital expenditures, net; lease financing debt amortization with fair market value or no purchase options; proceeds from refundable entrance fees; refunds of entrance fees; and other.

Recurring capital expenditures include routine expenditures capitalized in accordance with GAAP that are funded from current operations. Amounts excluded from recurring capital expenditures consist primarily of capital expenditures related to community expansions, renovations and major projects (including major community redevelopment and repositioning projects), the development of new communities and corporate capital expenditures (including systems projects and integration capital expenditures) that are funded using lease or financing proceeds, available cash and/or proceeds from the sale of communities.

Adjusted CFFO represents the Company's CFFO, excluding integration, transaction, transaction-related and strategic project costs. Integration costs include transition costs associated with the Emeritus merger and organizational restructuring (such as severance and retention payments and recruiting expenses), third party consulting expenses directly related to the integration of Emeritus (in areas such as cost savings and synergy realization, branding and technology and systems work), and internal costs such as training, travel and labor, reflecting time spent by Company personnel on integration activities and projects. Transaction and transaction-related costs include third party costs directly related to the acquisition of Emeritus, other acquisition and disposition activity, community financing and leasing activity and corporate capital structure assessment activities (including shareholder relations advisory matters), and are primarily comprised of legal, finance, consulting, professional fees and other third party costs. Strategic project costs include costs associated with certain strategic projects related to refining the Company's strategy, building out enterprise-wide capabilities for the post-merger platform (including the EMR roll-out project) and reducing costs and achieving synergies by capitalizing on scale.

We define Adjusted Free Cash Flow as net cash provided by (used in) operating activities *before*: changes in operating assets and liabilities, gain (loss) on facility lease termination; and distributions from unconsolidated ventures from cumulative share of net earnings; *plus*: proceeds from refundable entrance fees, net of refunds; and property insurance proceeds; *less*: lease financing debt amortization and Non-Development Capital Expenditures. Non-Development Capital Expenditures is comprised of corporate and community-level capital expenditures, including those related to maintenance, renovations, upgrades and other major building infrastructure projects for our communities. Non-Development Capital Expenditures does not include capital expenditures for community expansions and major community redevelopment and repositioning projects, including our Program Max initiative, and the development of new communities. Amounts of Non-Development Capital Expenditures are presented net of lessor reimbursements received or anticipated to be received in the calculation of Adjusted Free Cash Flow.

Our proportionate share of each of CFFO and Adjusted Free Cash Flow of unconsolidated ventures is calculated based on our equity ownership percentage and in a manner consistent with the definition of CFFO and Adjusted Free Cash Flow for our consolidated entities, respectively. Our investments in our unconsolidated ventures are accounted for under the equity method of accounting and, therefore, our proportionate share of each of CFFO and Adjusted Free Cash Flow of unconsolidated ventures does not represent cash available to our consolidated business except to the extent it is distributed to us.

We use CFFO, Adjusted CFFO and Adjusted Free Cash Flow to assess our overall liquidity. These measures provide an assessment of controllable expenses and afford management the ability to make decisions which are expected to facilitate meeting current financial and liquidity goals as well as to achieve optimal financial performance. They provide indicators for management to determine if adjustments to current spending decisions are needed.

These metrics measure our liquidity based on operational factors that management can impact in the short-term, namely the cost structure or expenses of the organization. CFFO, Adjusted CFFO and Adjusted Free Cash Flow are some of the metrics used by our senior management and board of directors (i) to review our ability to service our outstanding indebtedness, including our credit facilities, (ii) to review our ability to pay dividends to stockholders or engage in share repurchases, (iii) to review our ability to make capital expenditures, (iv) for other corporate planning purposes and/or (v) in making compensation determinations for certain of our associates (including our named executive officers).

Each of CFFO, Adjusted CFFO and Adjusted Free Cash Flow has limitations as an analytical tool. Material limitations in making the adjustments to our net cash provided by (used in) operating activities to calculate such measures, and using these non-GAAP financial measures as compared to GAAP net cash provided by (used in) operating activities, include:

CFFO, Adjusted CFFO and Adjusted Free Cash Flow do not represent cash available for dividends or discretionary expenditures, since we have mandatory debt service requirements and other non-discretionary expenditures not reflected in these measures; and the cash portion of non-recurring charges related to gain (loss) on lease termination and extinguishment of debt activities generally represent charges (gains), which may significantly affect our financial results.

In addition, our proportionate share of each of CFFO and Adjusted Free Cash Flow of unconsolidated ventures has limitations as an analytical tool because such measures do not represent cash available directly for use by our consolidated business except to the extent actually distributed to us, and we do not have control, or we share control in determining, the timing and amount of distributions from our unconsolidated ventures and, therefore, we may never receive such cash.

We believe each of CFFO, Adjusted CFFO and Adjusted Free Cash Flow is useful to investors because it assists their ability to meaningfully evaluate (1) our ability to service our outstanding indebtedness, including our credit facilities and capital and financing leases, (2) our ability to pay dividends to stockholders or engage in share repurchases, (3) our ability to make capital expenditures, and (4) the underlying value of our assets, including our interests in real estate.

We believe presentation of our proportionate share of each of CFFO and Adjusted Free Cash Flow of unconsolidated ventures is useful to investors since such measure reflects the cash generated by the operating activities of the unconsolidated ventures for the reporting period and, to the extent such cash is not distributed to us, it generally represents cash used or to be used by the ventures for the repayment of debt, investing in expansions or acquisitions, reserve requirements, capital expenditures for community renovations, apartment upgrades and other major building infrastructure projects (in the case of CFFO), or other corporate uses by such ventures, and such uses reduce our potential need to make capital contributions to the ventures of our proportionate share of cash needed for such items.
